ARCHITECTURE

(1999 - 2006)
National University of Córdoba:
Faculty of Architecture, Design, and
Urbanism; Argentina.

Language:

SPANISH Native

ENGLISH Intermediate Level

PROFESSIONAL SUMMARY

16+ years working as an architect, transitioning to Full Stack Development after completing a 3-month full-time bootcamp.

I demonstrated proficiency in tackling front-end challenges, seamlessly blending UX/UI design knowledge with architectural insights and translating them effectively into code

Work experience

10+ years work experience in renowned companies in the field of architecture, contributing to notable projects such as the Estel Building and Corte Inglés of Francesc Macia, in parallel to 5+ years experience as freelance professional in small-scale renovations, focusing on functional design.

My expertise in architecture encompasses a range of skills, including architectural design, project management, BIM modeling, Revit, AutoCAD, among others. I also have teaching experience as an adjunct professor at the National University of Córdoba, Argentina, where I taught the Architecture III undergraduate course.

RECENT PROJECTS

Group Project 'OliVino'

Developed a full-stack app to create a friendly platform for the elderly community to connect.

- Implemented functions in Sequelize to optimize data processing, integrated Multer for saving user photos, utilized Pusher for real-time messaging, and crafted the app's aesthetics and logo using CSS.

Feature Extension 'Bikers'

Full-stack app tailored for cyclists.

- Implemented login authentication, user credential validation, and tokens.
- Integrated Leaflet for mapping and ping functionality.

MVP 'PadresEnsync'

- Full-stack app designed to synchronize and simplify co-parenting. Implemented expense record features: Description of the expense, Amount, Approval, Delete expense, Expenditure zoom, Different URL, Form.

UI/UX Designer:

ROLLXPerience app, Unlock your potential, Skate and learn.

Utilized Design Thinking, Benchmarking, proto & user person, Storytelling, My MPV, Information architecture, User flow, Moodboard, Ui Kits, Icon Design, Usability test, evolution.

Technical Skills:

React.js, Vue.js | Javascript | HTML, CSS | Node.js /Express | MySQL | Postman | GitHub, Git | Visual Studio Code Pusher | Multer | Leaflet | Figma | Autocad | Revit
